

**The Beat Goes On**  
**Beady Eye**

**C/G**                **Cmaj9**                **Am**  
Thought that i died today  
**Am7**                        **D9**  
Walked off the stage  
             **E E7**                        **Am**  
Faded away up through the clouds  
**Am7**                        **D9**  
To the gig in the sky  
                             **G**  
And when i arrived  
**E E7**                                        **Am**  
The angels were singing a song  
**Am7**                        **D9**  
Yeah you know the one  
                             **G**  
Are you singing alone?

**C/G**                **Cmaj9**                **Am**  
Thought i d know just what to do  
**Am7**                **D9**                        **E E7**                **Am**  
That it d be how i wanted it to be of so new  
**Am7**                        **D9**  
But counting me in  
                             **G**  
I had to give in  
**E E7**                                        **Am**  
Make the thunder and lightning sing  
             **Am7**                        **D9**                                        **G**  
In the eye of the storm there s no right and no wrong

**C/G**  
So long, so long  
                             **F**                                        **C/G**  
Someday all the world will sing my song  
             **Cmaj9**        **Am**  
Still life remains  
**Am**                        **D9**                **G**                **C/G**  
Somewhere in my heart the beat goes on

Instrumental: **C/G F C/G Cmaj9 (2x)**  
                 **C/G Cmaj9 Am Am7 D9 E E7 Am Am7 D9 G**

**C/G**                **Cmaj9**                **Am**  
Thought it was the end of the world  
**Am**                        **D9**                                        **E E7**                **Am**  
Deep with guitars and all that I understand is here

**Am7**                      **D9**                      **G**  
 Through mental un word I m misunderstood  
  
**E E7**                      **Am**  
 Wasting my money and fame  
**Am7**                      **D9**                      **G**  
 I d throw it away just to prove that I can  
**E E7**                      **Am**  
 I m the last of a dying breed  
**Am7**                      **D9**                      **F**  
 And it s not the end of the world, oh no  
**G**                      **C/G**  
 It s not even the end of the day

**C/G**  
 So long, so long  
                          **F**                      **C/G**  
 Someday all the world will sing my song  
                  **Cmaj9**    **Am**  
 Still life remains  
**Am**                      **D9**                      **G**                      **C/G**  
 Somewhere in my heart the beat goes on

**C/G**  
 So long, so long  
                          **F**                      **C/G**  
 Someday all the world will sing my song  
                  **Cmaj9**    **Am**  
 Still life remains  
**Am**                      **D9**                      **G**                      **C/G**  
 Somewhere in my heart the beat goes on

**C/G**  
 So long, so long  
                          **F**                      **C/G**  
 Someday all the world will sing my song  
                  **Cmaj9**    **Am**  
 Still life remains  
**Am**                      **D9**                      **G**                      **C/G**  
 Somewhere in my heart the beat goes on
