It was good to see some Hawaiian stuff!!!

I learned this song back in 79- 80 (old Punahou Boy) from one of the Beamers cousins.

It s basically done in a different key than the previous one sent in, although I believe it is a little more precise. If you play it with the album, the key will not match, but alone it will sound perfect. Have fun!!!!!!!

I don t have the time to tab this, although a very basic pick - up and back down the strings - will suffice. You can jazz it up a little just by playing around.
