

Intergalactic
Beastie Boys

Normal Tuning: EADGBE

weird voice thing in beginning:

On E string (either one sounds good but I prefer the lower one)

E:---1~7-77-7-77-7-77-7-77-7~1-1-1-1~7 *repeat*

then when the lower robot voice thing stops about 17 seconds into it just strum 1 for a bit

The higher robot voice can be done on the High E string by sliding it up and down from the 18th fret down to the 1st repeatedly in time to the music.

Verse:

F G# G F

-1-----4-3---1-----
-1-----4-3---1-----
-2--*ring*-5-4--2-*let ring again*
-3-----6-5---3-----
-3-----6-5---3-----
-1-----4-3---1-----

and then at the end of that little verse bit at :57 into it, put in low E then go back F.

The string hits are 7th fret on the High E string.

Thats pretty much it!!!
