

Pray

Bebe Rexha

[Intro] Bm D A G

I pray to God, that he makes me feel alright
Hope he gets me through this one more night
I pray to God, he s like one too many drinks
And my intuition starts to sink

It s like ba-da-da-da-da-da
Your shadows, they follow
And they re haunting me
Ba-da-da-da-da-da
Where d you go?
This hollow soul is lonely

I m on my knees, begging pretty please
I m so love drunk stupid off these memories
Mother Mary please, have mercy on me
The Sun came up and I can t believe you re over me

When I m hung over you
When I m hung over you

I swear to God, that I won t do this again
I ve already wasted all my sins
I swear to God, I m so sick of what you do
But I ll never get enough of you
