

Chemtrails

Beck

(verse)

A **G** **F** **G**
I can't believe what we've seen outside

A	G	F	E
You and me watching the jets go by			

F	G
Oh, oooh, oh	
Oh, oooh, oh	

(chorus)

A **C** **F**
Down by the sea so many peopleâ€™ve

G
Already drowned

A **C** **F**
You and me watching the sea full of people

G
Try not to drown

So many people, so many people
Where do they go?
You and me watching the sky full of chemtrails
That's where we can float

(repeat verse chords as above)

All I can take from these skies is fog
And all I can see in this light are boats sinking
Oh, oooh, oh
Oh, oooh, oh

(repeat chorus chords as above)

Down by the sea
Swallowed by evil theyâ€™ve already drowned
You and me watching the sea full of people
Whoâ€™ve already drowned

So many people, so many people
Where do they go?
You and me hit by a test of white evil rain
Watching the jet planes go by

You and me watching
 You and me watching
 Chemtrails form swelling behind
 Thatâ€™s what I mean when we got in the slipstream
 Weâ€™re climbing a hole in the sky
