tune down 1/2 step

F

From these shores where we belong

C

F

I have seen the land beyond

Where the lord is strange and strong

C

F

I have seen the land beyond

Bb

F

There s no telling who ll be dead

C

F

When the pale horse is turning red

Bb

F

And their tongues will burn in vain

C

F

And everything will feel the same

There s no patience there s no peace

I have seen the land beyond

Where the gravestones never cease

I have seen the land beyond

Through the troubles of the years

A heavenly apparition appears

And we re haunted by our own minds

And the spirit calls in the skies

From these shores where we belong

I have seen the land beyond

I ll be there and I ll be gone

I have seen the land beyond
