The verse is basically a Gmajor:

```

b----333--33---33---33---33-00000-|  
g----000--00---00---00---00-00000-|  
d----000--00---00---00---00-00000-|  
a----222-333---22--333---22-00000-|  
e--3-33-----3-33-----3-33-33333-|
```

G - (As transcribed above)

On the old forgotten crossways where the fourteen rivers did meet

G

The bones of our elders were lying in the street

G

On the dark and dusty desert like a ghost I ve flown

G

I barely cried wherever I d ride I ride I never found a home

C D G

Woe on me

Am D

Somehow I will feel more free

G C

To wallow in the empty headed peace

Am D

Where the plain hearted sorrows never cease

G

I am just a ramshackle I go from town to town

G

Where there is no shelter I lay down on the grown

G

I ve killed for no reason I ve pissed upon a kind

G

Cost them all and burned the bone when I ve had the time

C D G

Woe on me

Am D

Somehow I will feel more free

G **C**

To wallow in the empty headed peace

Am **D**

Where the plain hearted sorrows never cease

G

Well there s saints and there are animals they ve taken what they could

G

And it s written in the pages to do just what they should

G

Well they stood the test and burned the rest and tore them limb from limb

G

Like a fashion with no passion they open up their skin

C D G

Woe on me

Am **D**

Somehow I will feel more free

G **C**

To wallow in the empty headed peace

Am **D**

Where the plain hearted sorrows never cease
