LA#m

Hop and get ghost in a Phantom
With a topic in the tropicanas
100 chains on me, do the dancing
Let me take you back to the mansion
Shawty, every night we getting madder
Loo-looking at the haters, make em mad
1 shot, 2 shots, turn it up
Two stepping to the name of love
Ray bands, getting low from the ground, I know
Designer all black and white, panda
Diamond flashing like the paparazzi cameras
Zooting out these catching tans
Fly, pelican, fly Scarface Lambos on the doorway
We high, baby, for life French Vanilla all day
I m in love with you small waist
Back it up, dirty whine it
Baby, everyday we gonna shine, shine, shine.

LA#m

Se abren las puertas pa arriba del Lambo
Abran paso que por hay va entrar rambo
Ready junto a la tropa vamo al mambo
Hoy se rompe y este ritmo lo baila hasta el sambo
Empezó la movie, hueso culé
Que muevan esa chapota pa uno ver
Ahora qué es? La llama mujer
Que ella mismo me trepó en la mesa
y llueven yo me los dí a cien

Un fuego, que prendan la movie
Un juego, no le baja y le suben
Un fuego, todo el mundo baja al lobby
Porque el fuego se prendió el hotel (fire)
Un fuego, que prendan la movie
Un juego, no le baja y le suben
Un fuego, todo el mundo baja al lobby
Porque el fuego se prendió el hotel (fire)
