

St Andrews

Bedouin Soundclash

I noticed there wasn't a chord version of this song up here yet. I think I got at least the intro down.

=====

It's

G

C

D

so the progression would go

G C G D.

=====

The strum pattern's pretty easy to figure out from there. I hope this helps.

Also the guitar is capo 5th fret.

I'm still working on the bridge and everything else though.
