Guitar 2 - **A F#m D Bm E**

Verse:

A **F#m**
I will state my case

D
Yes, I ve wasted all these days

Bm **E** **A**
Just letting all my hopes mislead me in a haze

F#m
A sad cliché

D
But her absent smile has left me dazed

Bm **E**
I won t use spite to find my way

Chorus:

F#m
All of my thoughts are soothing illusions
A **D**

The start is new but I saw the ending scene

Bm **E**

In this motorcycle daydream

F#m

Anticipation wrapped in confusion

A **D**

Every bit of sense left along the line

Bm **E**

There s a motorcycle daydream in my mind

Verse:

I could need a hand

And I truly never planned

To go and fuck it up again

And here I stand, misunderstand

Every bit and piece, there s no small clue

Helping me get closer to you

Chorus:

Thinking ahead of time is my weak part

Self-dramatizing, trusting what I ve foreseen

In this motorcycle daydream

Wishful events will orbit my lit heart

Plain sick of all the things I can t leave behind

There s a motorcycle daydream in my mind
