Bee Gees - Country Lanes

A E A E A

So warm is my morning sun, red is my rainbow

Soft is the cool summer breeze when I saw your face

I saw the light in your eyes so dark and demanding

Like a light in the storm

Whenever I cry my friend

You re always away and so I pretend

If I could live the dreams that I see

Long live my love

Walking in country (country) lanes (country lanes)

I ll never belong to someone again

Living my whole life through

A E A

Long live my love for you

My life has meaning now, I am a window

And all things seem clear to me now
