

My life has been a song
Bee Gees

D **G** **E** **A**
Sweet simple song of different light and different shades
F# **Bm** **G** **E**
The sound of life erupts and fades and all the world must
A
to play along
A **D** **A**
My life has been a song
D **G** **E** **A**
Here as I sleep, the love I dream will gently creep
F# **Bm** **G** **G#m** **Em** **G#m** **A**
Inside my heart I softly keep the tune that plays too long
A **D**
My life has been a song
Am7 **Am** **Bm**
Every sound in my head, every word that I said is like a melody
G
melody
Em **G** **D**
That no little person like me could ever change
Am
Every sound in the street , all the cold and the heat
G
is like a simphony simphony
Em **A**
Wich has never before been rearranged

Repeat the verse twice and finish
