How can we survive if we change what is real

Still waters run deep

Just remember when we lie to each other

No one wins and losers weep

Deceptions will show

It s a struggle when your starved for affection

This is all we need to know

I see the angel and the devil in your heart

I confess, either one is my addiction

Where your leading me

I don't have the will to fight
Out of the darkness and into the light
But living in your arms, I can take it
Please don't make me shiver
I know together we deliver

Let the gods decide who finds the sweetest thrill
Who can justify the truth?
I love you still

Still waters run deep
Just remember when we lie to each other
No one wins and losers weep
Deceptions will show
It's a struggle when you starved for affection
This is all we need

C#m

Ooh

Bm

Don't let him get close to you

You've got a stranger on your mind

C#m

The dream is free

Bm

I know I'm only human if I cry

A

Or maybe we should kiss and say goodbye
