

**All I Need**  
**Beeshop**

INTRO (C, Am, F)

**C**

She was a friend

**Am**

A friend of a friend

**Dm G**

And I thought it was supposed to be like yet

**C**

I thought you would end

**Am**

Up with a boyfriend

**Dm G**

But always thinking about when you go sleep

**E7**

Well, I was wrong

**Am**

I wrote you this song

**F**

To let you know

**G**

What you need to know

**C Am F**

That all I need is to make sure you love

**C Am Em F**

That you love me and there s nothing above

**C Am F**

And now that we have found each others hand

**Am G F**

Our stories will never part ways again

**C**

She was a friend

**Am**

A friend of mine

**F**

The type that we

**G**

spend our lives trying to find

**C**

I thought in the end

**Am**

You d be okay

**F**

Watching the love of your life fade away...
