Capo on 2nd

Intro  
**C**

**C**  
Some friends come in and out of view  
Last time I looked we were dancing like dogs on fire **F C**  
**C**  
Now I m laughing with your little girl  
Laughing about my sunburn on that day **F C**

**C**  
Oh, it s good to see her smile  
I remember how you held me as I cried **F C**  
**C**  
Flailing like a landed fish  
Trying to get back to before this day went away **F C**

**F**  
But who would make the cut  
When our time is up **Am G**  
**F**  
And everyone pointing at the sky  
Screaming the end is nigh **C G**

**C**  
It s coming  
**C**  
Like an explorer clearing ground  
Swinging your blade, flashing in the sun **F C**  
**C**  
You come right through my moped

**F** **C**

Pick me up and then was on your way

**C**

I treasure the stars

**C**

We ll always have

**F** **C**

I don t remember where we were

**C**

Don t think we d return

**F** **C**

These moments are fleeting as they are pure

**F**

But I think you d make the cut

**Am** **G**

When our time is up

**F**

Everyone pointing at the sky

**C** **G**

Screaming the end is nigh

**C**

It s coming

**F** **Am** **G**

**F** **Am** **G**

Everybody for the last time

**F** **Am** **F**

Come here to me for the last time

**C**

Will it be a fireball from the sky?

**F** **C**

Or will we all take to the bed

**C**

Laid low by a new pox?

**F** **C**

Or will the wrong guy get the codes?

**C**

Whose arms will I seek?

**F** **C**

Whose eyes would I meet in the final throws

**C**

And say it was good to be human?

**F** **C**

To be a human with you here

**F**

Who would make the cut

**Am G**

When our time is up?

**F**

And everyone pointing at the sky

**C G**

Screaming the end is nigh

**F**

I think you'd make the cut

**Am G**

When our time is up

**F**

And everyone pointing at the sky

**C G**

Screaming, the end is nigh

**C**

It's coming

**C**

Oh, hold me, it's coming

**C**

Hold me, it's coming

**C**

Hold me, it's coming

**C**

Hold me, it's coming

**C**

Hold me, it's coming

**C**

Hold me, it's coming

**C**

Hold me, it's coming
