(Verses 2 & 3 use the same chords)

I m sitting on a jet plane
I ll see my baby soon enough
I won t take her to a movie
I m worried that the lines become all blurred
I couldn t help but feel insulted
When the boss told us to act that way
I m ashamed of my profession
I would do the same again

I ll make another movie
Same one as the year before
I m looking for a story
Something ludicrous to come up from the street

I won t play another heavyweight
I won t play another big John Shaft
Put me in a frock and leave me to recite
Maybe my career will die
