

**I Can See Your Future**  
**Belle and Sebastian**

**A, E, B**

**E**

I saw you around

**F#m**

When you were young and free

**A**

How did I know

**C#m**

Try but I can't remember

**B**

How it began (back in the day)

**F#**

Was there a plan? (follow my way)

**A**

I'm living in the past

**E**

You're making history

**E**

The road into town

**F#m**

That's when it came to me

**A**

I'm not alone

**C#m**

I felt the world stop turning

**B**

Stop in your tracks (where could I go?)

**F#**

Cover my back (let yourself show)

**A**

I took the long way home

**E**

I feel a blistering

**A, E, B**

**D#m**

**C#m**

Listen up we'll make a deal

**B**

And I'll tell you what I see

**D#m**

**A**

And when the second hand

**B**

Hits the morning

**G#**

**C#m**

You will hear me calling

**A** **G#**

Come to me, come to me

**E, A, E, C#m**

**B, F#, C#m, E**

**E**

Don't leave me behind

**F#m**

Stuck in a memory

**A**

Caught in a lie

**C#m**

Something that once you told me

**B**

Fortune or fame

**F#**

Please don't be late

**A**

**E**

Watching the world will fall in the sand

**A, E, B, C#m**

Forward's the only way to go

You catch me up I'll take it slow

I can see your future, there's nobody around
