

I Didn't See It Coming
Belle and Sebastian

Standard Tuning

No Capo (unless you play the camerawalls cover, which is in D, meaning capo 2)

Great song, really simple. [Stuart (live)/Chris (in the video)] is playing some next

level chords on piano, like major ninths and other randomness, but if you play these chords

its fine.

Obviously listen to the song first.

C **F**
Make me dance, I want to surrender

C **G**
Your familiar arms, I remember

C **F**
We've been going transcontinental

C **G**
Got no car, we just take a rental

F **C**
But we don't have the money

Dm **Am**
(money makes the wheels and the world go round)

F **C** **F** **G**
Forget about it, honey

Next verse, same chords:

Make me dance, I want to surrender

Your familiar arms, I remember

Everybody's talking about you

Every word's a whisper without you

But we don't have the money

(money makes the wheels and the world go round)

Forget about it, honey

Trouble's never far away when you're around

Am **Am/G** **Am/F#** **Am/F**

Am **Am/G**
I didn't see it coming

Am/F# **Am/F**
I'm just not in the running

C **F**
Take me on a train cos I'm not flying

Am **G**

I can see the world from a different side

F

Read about us in the morning papers

G

When we make it alive

Then C, F, C, G etc. till end :)

And we don t need a lifetime

(Make Me Dance I Want To Surrender)

We re following the right line
