

How I Love You My Lord
Ben Cantelon

As this song has now been released on Soul Survivor s Complete album, I thought I should amend the chords I wrote from memory. So here is my guess at the new ones, great song!

Verse 1:

D F#m
Jesus, there is no one like You
G D2/F#
Selfless You came, bearing our shame
A
How can it be?
D F#m
Saviour, wonderful Redeemer
G D2/F#
For words aren t enough to tell just how much
A
I love Your Name

Chorus:

G A Bm
How I love You my Lord
G A D2
How I love You my Lord

Verse 2:

You oh Lord, are the one that I adore
Sovereign King, yet You welcome me
How can it be?
I worship You, with everything I say and do
All glory and praise be unto the Name
Above all names

Bridge:

A Bm
Nothing else could ever replace
A/C# G/B
The beauty of Your Name
A Bm
Nothing else could ever replace
A/D D2/E
The beauty of Your Name

(the D2/E is not really a chord, but just so you know how the bass should play!)

This is just my interpretation of the song, the bass may well do something different.
