

Seed Of Love
Ben Caplan

Bm **D**
When it rains it pours
E **G**
There will be water 8 days in store
Bm **D**
Growing in pools right there on the floor
E **G**
Flowin downstairs and out the door
Bm **D**
When you re in drought don t be in doubt
E **G**
Brother for now you can do without
Bm **D**
But when the beautiful clouds come out
E **G**
Try not to drown try not to shout

Bm A Abm G

Man when your dry life can be hard
That queen of hearts is a fickle card
When your hard life can be dry
No matter how hard you try
Just, when you think you re stuck
Bleeding and bleeding and down in the muck
A change of winds a bit of luck
And girls
Just dying to give you a phone number
Give me a call here s my phone number
Brother that s all, just a phone number
But that s all you need
Man get that phone number
So the seed of love

Seed of love no matter how small
Can blossom and grow or do nothing at all
But when the rains begin to fall
Seed of love will sprout
If only you'd call
When things are juicy and wet
Brother you better not forget
Don't go run out after all you can get
That's a good way to get someone upset
Brother your thirsty i know
But even though rushing waters flow
You got to try to take it slow
Or right back to the desert you'll go
Cause there's many clouds up in that sky
And though you'd like to drink and drive
It's not a good idea to try
All that just keep flooding by
Picture just one cloud
The one that you sought
Will rain on you if she sees you fought
Be in her rain
To love her a lot
To get really wet and to touch her soul
Seed of love
No matter how small
Can blossom and grow or do nothing at all
But when the rains begin to fall

Seed of love

Seed of love

No matter how small

Can blossom and grow or do nothing at all

But when the rains begin to fall

Seed of love
