[Verse 1]
        B   **E**
Won t you look up at the skyline

      E   **F#/E**
At the mortar, block, and glass

    E   **E**/**F**   **E/G**   **F#**
And check out the reflections in my eyes?

        B   **E**
You see they always used to be there

    B   **F#/E**
Even when this all was grass

    E   **E**/**F**   **E/G**   **F#**
And I sang and danced about a high-rise

        E
And you were laughing at

  F#   (Bass)- /**B** /**Bb** /**G#** /**F#**
My helmet hat,

E
Laughing at

  F# **E/G** (x2)
My torch

[Chorus]
B   **F#/C**   **G#m/C**
Go ahead you can laugh all you want

```
Baug /Bb     /B     /C      B/D       F#  B/D  F#  B/D  F#  B/C#
I    got    my     phil - osophy

      F#                      B    F#/C    G#m/C
and I trust it like the ground

Baug       /Bb      /B       /C      B/D    F#   B/D   F#
that s     why     my        phil - osophy

          B/D                F#        F#   E/F#  F#   E/G
it keeps me walking when I m falling down
```

[Verse 2]
```
  B                    E
I see that there is evil

     B                      F#/E
and I know that there is good

       E                E/F          E/G      F#
and the in-betweens I never understood

         B                 E
won t you look at me, I m crazy,

     B             F#/E
but I get the job done

     E                E/F          E/G      F#
yeah, I m crazy, but I get the job done

and I say:
```

[Chorus]

[Bridge]
```
  G#m                 /Eb   Baug/G#         /Eb
I pushed you  cause I loved you guys

  B/A      /Eb  F#dim7/G#
I didn t realize

/Eb             F#            E/C  B  E/C  B
you weren t having fun

       E
and I dragged you up the stairs
```

```
     F#
and I told you to fly

        E
you were flapping your arms

    F#                        G#m
you started to cry, you were too high

    E/A#
no, too high

[Intro pt1]

[Verse 3]
        B                    E
now you take this all for granted

          B                  F#/E
you take the mortar, block, and glass

      E                      E/F      E/G    F#
and you forget the speech and moved the stone

         B                  E
but it s really not that you can t see

    B               F#/E
the forest for the trees

    E             E/F         E/G
you never been out in the woods alone

[Chorus]
F#                         B     F#/C
So you can laugh all you want to

ect.

HUGE piano solo.
