

Shimmer And Shine

Ben Harper and Relentless7

HI-not sure about the verse chords but the chorus should be correct. I was looking for chords so long but found nothing so i though i try it outmyself. Hope it helps - would be to see more versions!!

Verses: **E A D G**

Chorus: **D A Hm G**

Verse **E A D G**

It takes a hundred miles of love
To heal a mile of pain
I never say goodbye to the scene
And I never blow out a flame
And I got

White lies for dark times and I don t need your crutch
I m kicking out stained glass windows and I m
Tender to the touch

Chorus:

D **A**
Shimmer and shine

Hm **G**
We leave it all behind

D **A**
Shimmer and shine

Hm **G**
When you tell me that you re mine

D **A** **E**
Shimmer and shine, shimmer and shine

E A D G

Bring me the music for the revolution
It puts my mind at ease, to know
We re the problem, we re the solution

The cure and the disease
But life is trying to force me
Force me to trust
I ve done all I can
I do what I must

Shimmer and shine
We leave it all behind
Shimmer and shine
When you tell me that you re mine

Shimmer and shine
We leave it all behind
Shimmer and shine
When you tell me that you re mine
Shimmer and shine, shimmer and shine
