Empty Corridors
Ben Howard

Ben plays the song I think in a different tuning but the tabs and chords sound
fine when playing over
the song.
Also, the bridge is a bit off, so if anyone can improve then please do.

For the first verse only, play these tabs in place of the chords:

[Verse 1]
```
Em                           Em/A
She s got a little house in town
              G
I sometimes go around, there
   G/F#
To see her
    Em                  Em/A
```

And she let me deep inside
       G
I sing her love songs
       G/F#
But she ll turn a blind eye
   Em   **Em/A**
Cause she ain t the sentimental type
       G   **G/F#**
I keep my heart in my pocket and I hold
  G/F#*
I hold it tight

[Chorus]
Em   **G**
I know that she don t mind if I
                   Em
Go away and I don t call
                         C
I know that she don t mind if I m absent through it all
Em   **G**
I know that she don t mind if I
                   Em
Go away and I don t call
                         C   **Em**
I know that she don t mind if I m absent through it all
         C
Through it all
        Em   **C**
Through it all

[Verse 2]
Em   **G**
Her skin is softer than the bluest eyes
       C
With the warmth that I need
        D
Gives me a place
              Em   **G**
To hide from the streetlights burning through the bedroom window
        C   **D***   **D**
In the shadows yeah there s loneliness we cling to
Em   **G**
When the morning comes
                 C
We ll go, we ll go our separate ways
        D   **Em**
Ain t no magic here, ain t no reason to stay

[Chorus]
Em   **G**
I know that she don t mind if I
                   Em

```
Go away and I don t call
                                C
I know that she don t mind if I m absent through it all
Em                              G
I know that she don t mind if I
                    Em
Go away and I don t call
                                C                       Em
I know that she don t mind if I m absent through it all
          C
Through it all
          Em    C
Through it all

[Bridge]
Em          C
And we fall through empty corridors
G           D
And we talk in useless metaphors
Em           C
Yeah we fall through empty corridors
G            D
And we talk in useless metaphors
Em          C
And we fall through empty corridors
G            D
And we talk in useless metaphors

[Ending]
                    Em
Only  cause we re lonely
                    G
Only  cause we re lonely
                    Em
Only  cause we re lonely
                    C
Only  cause we re lonely
      Em
Only lonely
      C
Only lonely
                    Em
Only  cause we re lonely
D           C
No, no, no, no
                    Em
Only  cause we re lonely

Lonely here oh, my, my, my
Em
