Well I can't think of better ways to spend my time
Than living in this life of rhyme
Surrounded by my future friends, for the best days of my life
And it's hardly growing up I know, but it makes me feel alright

If I had a point I don't know what it was.
Some days I stand on stage for little reason but because

And though I've wasted days, you know I won't take back these nights
I will not let go, I will live my life

And if I haven't done so well, it's living in this concrete hell
Where you all love the one show, and we're all in bed by 12
And I cannot call this place my home, till I've no more tales to tell.

So for now I'm just content to spend my time
Putting pen to paper in the hope of grand design
And though I've wasted days, you know I won't take back these nights
I will not let go, I will live my life

G, Em7, G/F#, Em7, C, G x2

Am C G
And I finally recognised , the other night

Am Em7
That weâ€™re no longer twenty five

Am C
The fame never came knocking

G G/F# Em7
And perhaps it never might

C C*
But weâ€™re too far gone to quit this now, to just go without a fight

C Am G
If I had a point I donâ€™t know what it was.

C Am Em7
Some days I stand on stage for little reason but because
Am C G

And though Iâ€™ve wasted days, you know I wonâ€™t take back these nights
Am C G
I will not let go, I will live my life

C Am G
If I had a point I donâ€™t know what it was.

C Am Em7
Some days I stand on stage for little reason but because

Am C G
When the day arrives I must bid you all good night

Am C G
I will not let go, I will live my life
