

Hide Away
Ben Rector

BEN RECTOR: HIDE AWAY

I got a mind full of questions
And they just wont let me be
I am weary from the restless part inside of me

I never care about believing
Till I see Iâ€™ve lost my way
And then my troubles all around me
And all that I can say

See me through another day
Cuz the devils callinâ€™
I need a place to hide away, from the storms
When the waters risen
When the sun donâ€™t shine
I need a place to hide away
And some peace tonight

I found out life was complicated
Or grave and black and white
Times I wana follow Jesus
But sometimes hes hard to find

I never cared about believing

Notes:

Capo on the 4th fret

Notice the C** this chord is played with like a normal C but without ring finger

I played this several times the pluck pattern is a bit easier to sing to
although on the
chorus the strum sounds more powerful..

The last chorus will sound good when you pluck strings or you can just not even
play
chords there.
