I wanted to play this song but do it simple, so this is how I typically play it.
(G,C,Am,D7)
Capo on 6
You dig your claws into my chest
I know only you can undress
                                     D7
Am
All these scales and all of my shame
You dip me into the waters of your grace
You clean me and kiss me on my face
Only you can dress me in love again
My name is Eustace
And I m not used to this
Am
                            D7
Grace that makes death die
My name is Eustace
I m not used to this
                          D7
Love that makes men alive
You came in an unexpected face
Grace came in an unexpected place
                                     D7
You came and dressed me in love again
When you smile the winter meets it s death
When you turn we have spring again
Only you can dress me in love again
My name is Eustace
```
