Just Breathe

Benjamin Francis Leftwich G D Stay, I could be your hiding place Together we ll weather the storm If you stay, I could be a fall from grace When the heavens, say we ll never belong Any time you re losing touch Em Just breathe, I ll catch you on the way down We can turn around, the weight of the sky on top of us Just breathe, I won t let you fade out We can turn around, the weight of the sky on top of us Just breathe Stay, tell me that it s not too late To recover, to get over life before Nothing s changed, every time your body breaks \mathbf{Em} I ll come running, so you never have to fall Any time you re losing touch Em Just breathe, I ll catch you on the way down We can turn around, the weight of the sky on top of us Just breathe, I won t let you fade out We can turn around, the weight of the sky on top of us Just breathe, just breathe, just breathe G Just breathe, I ll catch you on the way down
