I could live in a different place with a different house and a different name.

I could sing you your favourite song, yeah you'd sing along, you'd sing along
C F C G/C Am F C
I could wrap you in your favourite clothes and kiss your face just so you know

That I m the one who has got your back, now turn around and don?t be sad

I hope you find the love that?s true, so the morning light can shine on you

I hope you find what you?re looking for, so your heart is warm for ever more

I could fly you away with me to the furthest place you'll ever be

We could smoke ?til the sun goes down and without a sound, without a sound
C F C G/C Am F C
We'd fall asleep by the big blue sea, with open eyes so we could see
C F C G/C Am F C
The way it shines for you and I, you know it'll shine until we fly

F C G/C Am F C G/C Am
I hope you find the love that?s true, so the morning light can shine on you

I hope you find what you?re looking for, so your heart is warm for ever more

I could wait with you by the water

I could stand with you with your snow boots on
