# Now I Must Remember Bent

Standard Tuning, NO capo- barre chords are suggested
It only has two parts, I suggest listening to the song while going through the first time and you ll catch on.
The two parts are as follows:

Verse: A (twice as long), Bmin, C#m

Aaah aaah..etc: F#m, B

Intro: A, A, Bm, C#m, A

### Α

Do you ever think that

Bmin, C#m, A

This is now I must remember?

#### Α

You take in all around you Colours, taste and smell

Bmin C#m A

Before it fades like a dying ember

## Α

All day Replay

Bmin

The rush of life

C#m A

Makes a memory distant

## Α

I had coffee with rum Sang along to the drums

Bmin

Of the crowd

C#m

As we cheered the dawning

F#m, B, F#m, B...etc

(Aaah aaah..etc)

And I want to save it
Somewhere safe
So I ll remember
Bring it out one day
When everything looks grey
To make me smile
When I m feeling tender

All day
Replay
The rush of life
Makes a memory distant

And we climbed a hill top Following a new friend In the sun of the early morning

(Ahh ahh...)

Do you ever think that
This is now I must remember?
You take in all around you
Colours, taste and smell
Before it fades like a dying ember

All day Replay The rush of life Makes a memory distant

I had coffee with rum
Sang along with the drums
Of the crowd
As we cheered the dawning

F#m, B....to end
I remember long ago
Certain things were simple pleasures....
