

So sweet, so deep, see you again
I see you again

?

Bm G D A

Bm G D A

Bm G D A

If we should meet again in some darkened room

Bm G D A

I hope to my soul it could be soon

Bm G D A

Beat a path to my side, a sketch for design

Bm G D A

Can you see to the light, bare winter night

A G Bm

And wipe out the sun from your eyes, that vicious sky

A G

Wipe out the sun from your eyes, some sleep to lie

Bm A

See the way you are feel the way you move, so deep

G Bm

So cool, you burn through it all, it's the shape of your hand

A

A tone I understand, and since I first met you I found the love I lost

G Bm

It's just like you, just like you

?

See you again, see you again

Again, again

Again, again

See you again
