G#m, **F#**, **Ebm**, **C#** 3x

Ebm   **C#**   **C**
In the night I feel the cold of my loneliness
                 Ebm
Cold that embraces my heart
  C#   **C**
Draining my strength to the fight
                                  C#
Only to breathe this suffering

Ebm   **C#**

Tell me why?
```
                      Bbm
```
Why must I bear this cross
```
          C
```
So heavy for my soul?
```
        C#
```
Please hold me in your love

```
Ebm                       C#
```
I am the keeper of his heart
```
                           C
```
I was sent to take care of his sweetness
```
Ebm                    C#
```
Never I ll forget his love
```
                      C
```
Never I ll forget the light
```
                   C#
```
That shone in his eyes

```
Ebm                       C#
```
Let me fly, let me be free
```
                            Bbm
```
To stay with him beyond this life
```
                 C
```
Run across the sky
```
        C#
```
Let me see the sun again

```
Ebm
```
Let me die
```
           F#
```
Give me the light
```
                      C#                C            G#m
```
I m waiting for death to knock on my door to release my pain
```
                  C#
```
My sadness in the night

```
Ebm
```
Let me die
```
           F#
```
Give me the light
```
                      C#                C            G#m
