

Where Are You
Betty Steeles

This is a pretty rough layout of how I started playing it and all I can say is it works. Feel free to add whatever hammers and pull-offs you want and even change notes here and there. Or even end up figuring out your own chords :P But this is a very cool song to play and sing.

G Am
Broken frames
Em C
All dark inside
G Am
Faces mismatched
Em C
Trickle out in a line
G Am
Waves of shadows
Em C
Scattered dreams
G C (x32033)
Where are you?
Em (x22033) G
Where are you?
G Am
Trying to find,
Em C
What do I see?
G Am
Pictures that rhyme,
Em C
Colors that breathe
G Am Em C
I need to discover more
G Am
Find where I ve been,
Em C
Let images pour (repeat, you get the idea...)

Trying to find,

What do I see? (Where are you?)

Pictures that rhyme, (Where are you?)

Colors that breathe (Where are you?)
