

**Miss You
Between the Trees**

Capo on 3rd

I miss you more than you even know...

More than you probably care,

And More than I ll ever show

To you, my dear

At least in words alone...

And how does it make you feel?

To hear me say that I miss you?

And how does it make you feel?

To hear my say.....(oh)

That I, I wanna stand next to you for awhile

I, I wanna hear you say

I miss you more than you even know

More than I seem to share

And where would I go?

If ever you weren t there....

And how does it make you feel?

To hear me say that I miss you?

And how does it make you feel?

To hear me say.....

That I, I wanna stand next to you for awhile
