Close the door, put out the light,

Talk some more, till I grow tired,

Don t say goodbye, just slide away into the dark

and take with you my heart.

Close the door, put out the light,
come sleep till tomorrow comes creeping.
Down the hall they re talking lies,
don t speak of the troubles you re keeping.

Don t fall behind, just know that everything is fine,
knowing that you re mine.

Close the door, put out the light,
this day leaves me tired and heavy.
Waking hours will always fall away,
when you feel you re ready.

Don t say goodbye, just slide away into the dark
and take with you my heart.
