

Scary Mary
Biffy Clyro

Very rough chords for Scary Mary by Biffy Clyro. They re probably mostly wrong, as this is my first tab, but I got fed up with there being no chords for this song on the site. Feel free to comment and correct these, or use them as a guideline to work out the chords for yourself... or just ignore them if they re too bad :P Listen to the song to work out the strumming pattern - it s fairly simple :) Thanks! T.
