

Just The Same
Big Dismal

Heres my favorite song of all time. Really simple song, but took me a many attempts to figure it out. Too bad Big Dismal no longer together, they were greatest band ever. I Eric Durrance steps it up with the whole country thing, this first CD was just OK to all his Big Dismal tunes. Anyways I just threw this together real quick, Im sure errors, but not as bad as some of the other tabs/chords Ive seen.
