Rebel

Big Dumb Face

Rebel

Tabbed by Daniel.

Song by Wes Borland.

This is not the stupidest song i ve ever heard. This is the funniest song i ever hear. Its from his solo project big dumb face. Its hilarious, get it when it comes out.

The song is 3 cords, F#,A,B(or it may be B#, im not sure on the proper name)

The progression is

F#, A, B, F# during the verse, he hits the cords, than plays an apprego with the cord, it isn t hard, I ll be able to figure it out. During the chorus, he hits the cords once, and sings.

I this helps you, its an awesome song. If u have any questions, u can write me at wborland60@hotmail.com
