Left On The Bed

(dedilhado) -> don t stroke chords, pick up with thumb.

**C# G# Bbm G# F# Fm F# G#**

The space in the bed  
Faded about as fast as the infatuation did  
We both paid no mind  
Where the lines separated  
Well, I ain t stranged  
And I don t claim to be  
Cause I ve seen my fair share  
Of infidelity

So long, see you tonight  
When you mean goodbye  
Is it so wrong, you and I?  
I know that you want him back, baby

**C# G# Bbm G# F# Fm F# G#**

There was nothing I could ve said  
That would have made him not want me dead  
But my heart still  
Beats both blue and blood red  
The ups and downs, in and outs  
Not black or white, but grey s  
The shade we made  
When you d kiss me and say

So long, see you tonight

It was none of my business, I know  
But it was wanting and waiting and  
Show me a witness  
To what it is that I saw  
So I decided it wasn t prime

But it was intentioned  
Oh, and instead  
I sat down, read the letter you left on the bed it said:

**Bb G# F# G#**

Dear baby,  
I know  
Things have been crazy lately  
Between you and I  
But I ve been missing you  
Wanting to hold you today  
Until the day that I die  
And if you gave me a chance  
I know I d be the best thing in romance  
Since Romeo met Juliet  
And I bet that you bought it...so
