I Wont Run From It
Big Red Machine

 [Intro]
C#m Bsus4 C#m Bsus4
C#m Bsus4 C#m Bsus4
C#m/G# B/F# E G#m/D#
C#m Bsus4 E/G# B/F#

[Verse 1]
```
                  E
now, Look at that road
          Bsus4
Look at that climb
      C#m                                      Bsus4
When its throwing in a nickel or get out a dime
               E/G#
Too patterned, too close
               B/F#
Too flattered, too broke
             E9    B/F#
Now look at you go
```

[Verse 2]
```
                  C#m
Took the morning to float
                 Bsus4
Took the morning to find
      E/G#                               Bsus4
I got a vision of a mission but an awkward vibe
             E
Too livid, too scared
             B/D#
Too loving, too closed
             C#m    Bsus4
Now look at you know
```

[Chorus]
```
         E                   B/D#
When the cause is on dead arrival
        C#m                       A
And you coulda shoulda woulda for free
               C#m               B/D#
Now look at your post script , every minute
     E                         Bsus4
Its a very slow thing to have glean
```

C#m Bsus4
E/G# B
E B/D#

C#m Bsus4

[Verse 3]
```
             E
So maybe you know
             Bsus4
Or maybe you dont
        C#m                                      Bsus4
It isn't time for a fitting of a passing cloak
                   E
Too forward , too fine
                B/D#
Too patient, too wise
              C#m        Bsus4
Now look at you shine
```

[Verse 4]
```
                   C#m
Took the matter to house
                 Bsus4
Too the matter to mouth
       E/G#                                    B/D#
With the feeling that im fishing in a harbor now!
                 C#m
Too clever , too kind
                 Bsus4
Too patterned to hide
                 E/G#     Bsus4
Now, look at that smile
```

[Chorus]
```
         E                       B/D#
So When the cause aint dead on arrival
        C#m                            A
And you couldn't shouldn't wouldn't for free
       E                    B/D#
Do not hang your cause on revival
         C#m                       Bsus4
Cause now looking is bringing you grief
            E                  B/D#
So When the cause is dead on arrival
         C#m/G#                       A
And you coulda shoulda woulda for free
               C#m                     Bsus4
I wouldn't of forced it on the minute
       E                          B
Its a very hard thing to have grief

                 C#m                        Bsus4
Ah give it a minute , were dancing in it
```

Bsus4 to End
