That s how the songs goes but she adds and removes a finger here and there

[Verse 1]

Oh the last time I saw Paul  
I was horrible and almost let him in  
But I stopped and caught the wall  
And my mouth got dry so all I did was take him for a spin

[Verse 2]

Yeah we hopped inside my car  
And I drove in circles round the freight train yard  
And he turned the headlights off  
Then he pulled the bottle out  
Then he showed me what was love

[Chorus]

I ll be your morning bright goodnight shadow machine  
I ll be your record player baby if you know what I mean  
I ll be your real tough cookie with the whiskey breath  
I ll be a killer and a thriller and the cause of our death

[Verse 3]

In the blossom of the months  
I was sure that I d get driven off with thought

**Ebaug** **D6**  
So I swallowed all of it  
**Emadd9** **C** **D** **G**  
As I realized there was no one who could kiss away my shit

[Chorus]

**C**  
I ll be your morning bright goodnight shadow machine  
**G**  
I ll be your record player baby if you know what I mean  
**C**  
I ll be your real tough cookie with the whiskey breath  
**G**  
I ll be a killer and a thriller and the cause of our death

[Instrumental]

[Verse 4]

**Ebaug** **D6** **Emadd9** **C** **D**  
Paul, I know you said that you d take me any way I came or went  
**G** **D**  
But I ll push you from my brain  
**Emadd9**  
See, you re gentle baby  
**C** **D** **G**  
I couldn t stay, I d only bring you pain

[Chorus]

**C**  
I was your starry-eyed lover and the one that you saw  
**G**  
I was your hurricane rider and the woman you d call  
**C**  
We were just two moonshiners on the cusp of a breath  
**G**  
And I ve been burning for you baby since the minute I left
