

**Featuring You**  
**Big Time Rush**

**C9**

My heart had a bunch of beats

**D**

But none of em seemed to work for me

**C9**

I can't find the one to see

**D**

Another thing seemed so out of key

**C9**

I was looking for a melody

**D**

**A**

Walked right in and took the lead

**C9**

I didn't know what to say

**D**

**A**

Cause everything sounded so differently

**C9**

Now my heart goes BOOM BOOM BOOM

**D**

**A**

It's like a million notes a minute and I don't know how you did it

**C9**

Yeah my heart goes BOOM BOOM BOOM

**D**

**A**

So let's put our song on replay

**C9**

**D**

**A**

You and me together make a number one record

**C9**

**D**

**A**

**C9**

And the only song that I wanna do is featuring you

I can read the lyrics

**D**

**A**

It's like I already hear it

**C9**

**D**

**A**

**C9**

**D**

**A**

Girl you know the only song that I wanna do is featuring youuuuu youuuuu

**C9**

Now you're stuck inside my head

**D**

**A**

Like a hit on the radio I can't forget

**C9**

Now my life's got a new soundtrack

**D**

**A**

When I sing it for you, you sing right back

**C9**

No solo, a duet

**D**

**A**

And I m never going back to the way it was

**C9**

And I know that we just met

**D**

**A**

But it all sounds better with the two of us

**C9**

Now my heart goes BOOM BOOM BOOM

**D**

**A**

It s like a million notes a minute and I don t know how you did it

**C9**

Yeah my heart goes BOOM BOOM BOOM

**D**

**A**
