

No Idea

Big Time Rush

F I ll love you, if you ain t got nobody to love **C**
F And girl I ll adore you, if there s no one to adore **C**
F And I ll show you, if there s no one to show **C**
F And I ll know you, if you want somebody to know **C**

F Every time you come around
C You put a lightning bolt on my face
F Baby, everytime you come around
C Girl, you take my breath away

F And I just wanna breathe until I take you in **C**
F Cause I want you to breathe until you take me in **C**
But the truth is

C She has no idea, no idea
Am That I m even here, I m even here
C She has no idea, no idea
Am I m standing here, I m standing here
I m standing here

F I ll kiss you, whenever you want to be kissed **C**
F

C How I miss you two seconds after you leave screaming come back to me, come back to me
F Let me please you, let me see you, let me take that heart of yours **C**
F And I ll be whatever you need me to be -- the good guy, bad guy, just tell me **C**
