

## Theres A World Between Us

Bill Ryder-Jones

For the intro, there is a riff you can play along with the chords if you re versatile enough on guitar, but if not, playing the chords will sound just fine. Here s the riff which you can work into your playing. If you re playing the chords with the riff, use your pinky finger to play the melodies, and keep the B string open on the second playing of G in every 4 bars.
