

## Hostage

Billie Eilish

**Am**        **C**    **F**  
I wanna be alone  
**Am**                                **C**                **F**  
Alone with you, does that make sense?  
**Am**        **C**                **F**  
I wanna steal your soul  
             **Am**                **C**                **F**  
And hide you in my treasure chest

**Am**                **C**                **F**  
I don t know what to do  
             **Am**                                **C**        **F**  
To do with your kiss on my neck  
**Am**                **C**                **F**  
I don t know what feels true  
             **Am**                                **C**        **F**  
But this feels right so stay a sec  
             **Am**                                **C**        **F**  
Yeah, you feel right so stay a sec

**E7**                                **F**  
And let me crawl inside your veins  
                             **E7**                                **F**  
I ll build a wall, give you a ball and chain

**Dm**  
It s not like me to be so mean  
             **F**  
You re all I wanted  
             **Dm**    **F**  
Just let me hold you

( **Am**   **C**   **F**   **Am**   **C**   **F** )

**Am**                **C**                **F**  
Gold on your fingertips  
**Am**                **C**                **F**  
Fingertips against my cheek  
**Am**                **C**                **F**  
Gold leaf across your lips  
**Am**                **C**                **F**  
Kiss me until I can t speak

**Am**                **C**                **F**  
Gold chain beneath your shirt

**Am** **C** **F**  
The shirt that you let me wear home  
**Am** **C** **F**  
Gold s fake and real love hurts  
**Am** **C** **F**  
And nothing hurts when I m alone  
**Am** **C** **F**  
When you re with me and we re alone

**E7** **F**  
And let me crawl inside your veins  
**E7** **F**  
I ll build a wall, give you a ball and chain  
**Dm**  
It s not like me to be so mean  
**F**  
You re all I wanted  
**Dm** **F**  
Just let me hold you  
**Dm** **F**  
Hold you  
**Am** **C** **F**  
Like a hostage  
**Am** **C** **F**  
Like a hostage  
  
( **Am** **C** **F** )  
( **Am** **C** **F** )
