**Dm**

Told you not to worry

**Am**

But maybe that's a lie

**Dm**

Honey, what's your hurry?

**Am**

Won't you stay inside?

**Dm**

Remember not to get too close to stars

**Am**

They're never gonna give you love like ours

**Am**

Where did you go?

I should know, but it's cold

**Em**

And I don't wanna be lonely

**Dm**

So show me the way home

**Am**

I can't lose another life

**Am**

**Em**

Hurry, I'm worried

**Dm**

The world's a little blurry

**Am**

Or maybe it's my eyes

**Dm**

The friends I've had to bury

**Am**

They keep me up at night

**Dm**

Said I couldn't love someone

Cause I might break

**Am**

If you're gonna die, not by mistake

**Am**

So, where did you go?

I should know, but it's cold

**Em**

And I don't wanna be lonely

**Dm**

So tell me you'll come home

**Am**

Even if it's just a lie

**Am**

I tried not to upset you

**Em**

Let you rescue me the day I met you

**Dm**

I just wanted to protect you

**Am**

But now I ll never get to

**Am** **Em**

Hurry, I m worried

**Am**

Where did you go?

I should know, but it s cold

**Em**

And I don t wanna be lonely

**Dm**

Was hoping you d come home

**Am**

I don t care if it s a lie
