Bm                      A                G
Im not trying to save us anymore
Em                                      E

hand tight
Em                      E
7 days in limbo, push me out the window
Bm                      A                Em
nothing in common, nothing to lose, nothing but problems, between me and you
Em                      E
with your arms akimbo, 7 days in limbo
Bm      A       Em              E
7 days, mmmmm
```

[Verse]
```

weve said it all, no more bones to break
Bm                      A                Em
Im done thinking that we might just spark enough
Em                                      E
were broken glass waiting to be washed away
```

```
Bm                              A                      Em
