

**The End Of The World**  
**Billie Eilish**

[Intro] **Dm Am Bb C Am**

[Primeira Parte]

**Dm** **Am**  
Breathe the air again  
**Am** **Bb**  
It s a beautiful day  
**Bb**  
I wish this moment would stay  
**C**  
With the earth  
**Am Dm**  
Some primal paradise  
**Dm Am**  
But there you go again  
**Am Bb**  
Saying everything ends  
**C**  
Saying you can t depend on anything  
**A7**  
Or anyone

[Refrão]

**Dm F Bb**  
If the end of the world was near  
**F C Dm**  
Where would you choose to be?  
**Bb F C**  
If there was five more minutes  
**A**  
Of air  
**Bb**  
Would you panic and hide?  
**F**  
Or run for your life?  
**C Bb**  
Or stand here and spend it with me?  
**F C Dm**  
If we had five more minutes  
**Bb C Dm**  
Would I, could I make you happy?

[Segunda Parte]

**Dm Am**

And we would live again

**Am** **Bb**

In the simplest of ways

**Bb**

Living day after day

**C** **Am** **Dm**

Like some primal animals

**Dm** **Am**

We would love again

**Am** **Bb**

Under glorious suns

**C**

With the freedom that comes with the truth

( **A7** )

[Refrão]

**Dm** **F** **Bb**

If the end of the world was near

**F** **C** **Dm**

Where would you choose to be?

**Bb** **F** **C**

If there was five more minutes

**A**

Of air

**Bb**

Would you panic and hide?

**F**

Or run for your life?

**C**

**Bb**

Or stand here and spend it with me?

**F** **C** **Dm**

If we had five more minutes

**Bb** **C** **Dm**

Would I, could I make you happy?

[Ponte]

**Dm** **Am**

So it finally came to pass

**Am** **Bb**

I saw the end of the world

**Bb**

Saw the madness unfold

**C** **Am** **Dm**

Like some primal burial

**Am**

And I looked back upon

**Bb**

Armageddon

**Am**

**Bb**

And the moment of truth between you and me

( Am Bb Am Bb )

Oh

**Dm**

If we had five more minutes

**Bb C**

Of air to breathe

**F C Dm**

And we cried all through it

**Bb C**

But you spend them with me

**F C Dm**

On our last few drags

**Bb C**

Of air we agree

**Bb C Dm**

I was, and you were, happy?
