Billy Bragg

(Verse pattern the same each verse)

Intro: C C/B Am Am7/G D7/F# F

C C/B Am Am7/G

Take the M for me and the Y for you

D7/F# **F**

Out of family and it all falls through

C C/B Am Am7/G

We ve got to love each other every day

D7/F# **F**

Instead of hoping it might stay that way

Now, I've got friends who are telling me

They re living in clover

But lose the **C** for commitment and the L for love

And it s over, baby, it s all over now

Bridge:

G **Am**

I m not thinking about the things you said

F	C	C/B
---	---	-----

As we lay awake last night in bed

G Am

I m just happy to be by your side

F **D** **G** (see below)

When we re rolling in the sheets or tumbling in the tide

You keep on come telling me all about your problems

Let s pull the Y off of your and throw it on the fire

And make em our problems, baby

Our problems now

Take the M for me and the Y for you

Out of family and it all falls through

We've got to love each other every day

Instead of hoping it might stay that way

Your problems, baby

Make em our problems now

Your problems, baby

Make em our problems now
