Ontario, Quebec and me  
(Billy Bragg)

**F**                           **C**           **F**  
You don t need my Christmas card,  
          **Dm**     **C**               **Bb**  
You already have my heart.  
**F**                           **C**           **F**  
This has been an holiday romance,  
**Gm**                           **Bb**     **C**  
Try from the very start.

chorus:

**Bb**               **F**  
For we know how to spend the time,  
          **Dm**                   **Bb**  
Who cares about the weather.  
          **F**                                   **C**           **F**  
We ll dance in the town till the sun goes down,  
          **Dm**           **C**           **Bb**  
And push our bed together.

**F**                                   **C**           **F**  
>From the land of the midnight sunglasses,  
          **Dm**           **C**           **Bb**  
To the mountain of the moon.  
**F**                                   **C**           **F**  
You could never stay in bed too long,  
          **Gm**                           **Bb**     **C**  
I ll never come back too soon.

(chorus)

**F**                   **Dm**     **C**           **F**  
You know how a fool I am,

**Bb**          **C**          **F**  
With my short attention span.  
          **Bb**          **C**          **Dm**  
Flying in the really season too,  
                  **Bb**          **C**          **F**  
Nothing could keep me away from you.

BREAK (same chords than a verse)

(chorus)
