

at twenty-one you re on top of the scrap heap
at sixteen you were top of the class
all they taught you in school was how to be a good worker
the system has failed you, don t fail yourself

just because you re better than me
doesn t mean i m lazy
just because you re going forwards
doesn t mean im going backwards

thats just the chords. i suggest listening to the cd and playing around with the
dynamics. alo try picking through the chords or just hitting the overdrive and
playing
power chords. just have fun with it. send questions, comments, or corrections to
Gmpunk@aol.com.
